Oliver Sacks delves deeply into the lives and minds of uniquely different individuals, including Temple Grandin, who has autism and studied "normal" or "neurotypical" people like an "Anthropologist on Mars," because she had no clue about how other people think or act and she desperately wanted to know how she could go about having social interactions in the world she had landed in.

An Anthropologist On Mars: Seven Paradoxical Tales: Sacks ...

An Anthropologist on Mars is an engaging collection of seven neurological case studies that illustrate a supposed paradox - that what is perceived as disability or neurological deficit can result in amazing adaptations that make it a kind of gift. For example, a painter sustains a brain injury that makes him unable to see colour, and after a period of initial depression and disorientation, begins to appreciate his new way of seeing, and to reproduce it in black and white art.
