neurological rehabilitation. Covers the theoretical underpinning of the Bobath Concept. Presents a holistic, 24-hour approach to functional recovery.

Bobath Concept: Theory and Clinical Practice in ...

The Bobath concept is named after its inventors: Berta Bobath (physiotherapist) and Karel Bobath (a psychiatrist/neurophysiologist). Their work focused mainly on patients with cerebral palsy and stroke. The main problems of these patient groups resulted in a loss of the normal postural reflex mechanism and normal movements.

Bobath concept - Wikipedia

A clearly defined model of Bobath clinical practice has been lacking in the current evidence base. This creates confusion as to what actually the Bobath concept is in clinical practice and leads to misinterpretation and misrepresentation within the literature.
