The EOS 5DS R camera features Canon's newest full-frame CMOS sensor. At 50.6 Megapixels, it's the highest resolution sensor in the history of EOS. It captures 8712 x 5813 effective pixels, delivering images with an unprecedented level of realism perfect for large-scale commercial printing, fine art, significant crops and any number of other high-end applications.

Canon U.S.A., Inc. | EOS 5DS R

Shutterbug review a pre-production Canon EOS 5DS R (with beta firmware). In the conclusion: What's missing in this camera?: 4K video and a vari-angle, swing-out (articulated) LCD monitor to give you the feel of a true, 21 st century movie-making experience. And, yes, I'd like to see frame rates higher than 5 fps, but remember that we are shooting at the full 50MP resolution.

Canon EOS 5Ds DSLR The 5Ds and 5DsR are both 51 megapixel (MP) full frame DSLR bodies from Canon. They currently provide the highest sensor resolution available from a full frame digital camera and, as such, are targeted to photographers who need particularly high image resolution and who will photograph and post-process in ways that provide this.

Canon EOS 5DsR/5Ds: My Experience - G Dan Mitchell ...

Such filters soften the image slightly, so the low-pass effect is cancelled in the EOS 5DS R for the sharpest possible performance. The small risk of artefacts as a consequence of this makes EOS 5DS R a good option when shooting outdoors or in controlled studio conditions, but for other applications the EOS 5DS may be a better choice.

Canon EOS 5DS R - EOS Digital SLR and Compact System ...

I have been told a couple of times now and reminded today that production of the Canon EOS 5DS and Canon EOS 5DS R has ended. There will obviously be stock available for quite some time, but the series has definitely reached its end. There will be no DSLR replacement for either camera. Let the rumors of a high-megapixel Canon EOS R commence.

Canon has added to its EOS 5D range with the launch of two 50MP cameras, the 5DS and the 5DS R. Both cameras are high-resolution full frame models, primarily aimed at stills photographers. The only difference between the models is that the 'S' has an optical low-pass filter, while the 'S R' has a self-cancelling filter (the same relationship as Nikon's D800 and D800E models shared).
