Caterpillar Serial Numbers, Prefix Identification - Depco ...

Your Caterpillar Serial Number (SN) is an 8 character alphanumeric code, typically starting with 3 letters and ending with 5 numbers. In early 2000 Caterpillar changed to a 17 character Product Identification Number (PIN) that conforms to the construction equipment industry standard. The PIN contains the serial number for the machine.

Caterpillar Serial Number Prefixes - Barrington Diesel Club

The format of the Serial Number Guide follows the standard practice of listing serial numbers either by a machine's make and model (and in some cases, Caterpillar being one, by serial number prefix) or by its manufacturer only when one set of numbers covers all categories and all models in a product line.

Heavy Equipment Serial Number Guide - Top Bid

Not sure how it is stamped on the plate fixed to your machine, but to enter into Cat's systems the Serial Number should be a total of 8 digits. The first 3 are the prefix - 04X in your case, and the next 5 are the machine Serial Number. If there are only 4 digits then put a zero before the first one.

Hi Everyone - can someone out there translate my D6 9U serial number: 43785P into a model year? Also, I recall reading once (but cannot find the reference anymore) about the 5P suffix having reference to special attachment - do you have any information on that piece too (I cannot image what it could be as this CAT is very sparse from a features point of view).

D6 9U Model Year - Antique Caterpillar Machinery Owners ...

Each can be identified as a Caterpillar product by its Product Identification Number (PIN). The PIN is imprinted on a plate somewhere on the vehicle or equipment. The PIN contains the coding to identify the product and the equipment's serial number. Step 1

How to Identify Caterpillar Equipment | It Still Runs

The Caterpillar serial number tells you the machinery's series number, machine model and origin. You can find out the corresponding meaning to each series, model and origin number or abbreviation using the table found at <http://www.topbid.com/resources/manufacturers/caterpillar-series-and-country-of-origin/>

How Do You Read Caterpillar Serial Numbers?

Find the product identification number. The engine's serial number plate is usually found on the right rear side of the left cylinder block. Wheel loader serial number plates can usually be found on the left side of the front frame near the operator's box.

How to Find the Year of Caterpillar Equipment | It Still Runs

Most engine serial numbers can be found on the dataplate, which is typically on the driver side of the valve cover. Not all engines are consistent in where they put these information plates. The dataplates for a certain type of engine can be found in various places depending on the model. However, Caterpillar is pretty regular with their location.
