energy required for

Acces PDF Chemical Energy And Atp Answer

muscle contraction comes from a molecule called adenosine triphosphate or ATP (adenosine triphosphate). At any one time, we only have a small amount of ATP in our muscles and so ATP must be regenerated in our bodies. In humans, energy is produced through three main biochemical systems: ATP-PC (phosphagen) system;

Acces PDF Chemical Energy And Atp Answer

Biochemical Systems Handout

Are you struggling to understand the primary energy pathways and how the body uses the energy formed from each system? Here's a quick breakdown of the phosphagen, anaerobic and aerobic pathways that fuel the body through all types of activity.
