Permanent hair color won't wash out and will allow you to go lighter. Going lighter will probably require bleach. It's harder to reverse permanent dye, and you will have to retouch the roots as your hair grows. Semi-permanent hair color fades away with washes. It's great for highlighting, changing color tones in hair, adding depth, and covering ...

How to Find Your Perfect Hair Color (with Pictures) - wikiHow
During birth, the infant eye color is light, since new born babies do not have active melanin which darkens the cells. Once your baby is 6months old, the eye color begins to change. Gradually, the eye color takes on a different shade as per the genetic inheritance. Such change starts around the age of six months.
