Detroit 2 Stroke Diesel Engines

The Detroit Diesel Series 71 is a two-stroke diesel engine series, available in both inline and V configurations. The first number in the model series designation refers to the number of cylinders, and the second - 71 - the nominal displacement per cylinder in cubic inches, a rounding off of 70.93 cu in. Inline models included one, two, three, four and six cylinders, and the V-types six, eight, 12, 16 and 24 cylinders. The two largest V units used multiple cylinder heads per bank to keep the hea

Detroit Diesel Series 71 - Wikipedia

Today Detroit Diesel is a part of DaimlerChrysler's Power systems division and, along with MTU, still builds new two-stroke engines for the U.S. military. There are almost 500,000 "screamin jimmies" still working everyday in the world, according to MTU-Detroit Diesel's website, with a total of 3.5 million two-stroke engines built since 1940.
