[PDF] Akehurst's Modern Introduction to International Law ...

According to Bentham's classic definition, international law is a collection of rules governing relations between states. It is a mark of how far international law has evolved that this original definition omits individuals and international organizations—two of the most dynamic and vital elements of modern international law. Furthermore, it is no longer accurate to view international law as simply a collection of rules; rather, it is a rapidly developing complex of rules and influential ...

international law | Definition, History, Characteristics ...

There is no "Code of International Law". International law has no Parliament and nothing that can really be described as legislation.
