Motion Time Study Design Measurement Work - AbeBooks

Time and Motion Study Basics. In summary, a time and motion study goes like this: 1. Look closely at what you're doing. 2. Spot opportunities to be more efficient. 3. Make a change to the way you work to do it. 4. See if it produces the expected results. 5. Rinse and repeat. (Note: a traditional Taylorist time and motion study separates thinking about work versus actually doing it. You can tell who's doing the thinking because they're wearing a suit and an expensive watch.
