Swimming Upstream: Collaborative Approaches to Watershed Management (American and Comparative Environmental Policy)

Swimming Upstream: Collaborative Approaches to Watershed ...

Swimming upstream : collaborative approaches to watershed management. In recent years, water resource management in the United States has begun a shift away from top-down, government agency-directed decision processes toward a collaborative approach of negotiation and problem solving. Rather than focusing on specific pollution sources or specific areas within a watershed, this new process considers the watershed as a whole, seeking solutions to an interrelated set of social, economic, and ...
