The Naked Brain is a fast paced, action-packed, science-fiction novel that once you start you will find difficult to put down. The reader is quickly pulled into the story and is then hurtled through the plot twists and turns towards earth's pending destruction and mankind's likely demise.

Naked Brain by Michael A. Hunt - Goodreads

- Annie Grace, This Naked Mind Conversations about alcohol addiction — specifically, those that embrace the term “alcoholism” — are old and tired. They talk of rock bottoms, describe self-destruction, promote denial, and exclude millions of people struggling to accept, justify, understand, and control the way they consume alcohol.
