from BestMark. Customer journey maps (a.k.a. “user-experience maps”) are useful tools that make it possible for you to better understand your customers’ perspectives throughout every encounter with your business, from the first phone call to delivery of your product, service or solution and beyond.

## **User experience mapping services from BestMark**

A user experience map helps you sketch out the UX and forecast any friction before creating the actual website or prototype. It’s important to look at the whole picture before you start building or even designing. If you already have a product, it can be a great exercise to understand any friction points your customers may be facing.

## **User experience mapping for dummies - UX Collective**

There are tonnes of different ways to visualise experience or experience maps (see some examples e.g. on [uxeria.com](http://uxeria.com)). The
